

# DEFEND OUR COLLEGE!

## CITY HALL MUST TAKE ACTION TO SAVE CCSF!

*City College of San Francisco (CCSF) is widely acknowledged to be one of the best community colleges in the country. The current crisis is largely the joint creation of two groups: the accreditation commission (ACCJC), an unaccountable rogue body that has ties to for-profit colleges and the student loan industry; second, interim administrators who have no long-term commitment to the school. Both are abusing the accreditation process to impose an agenda to downsize the college, funneling students into private and online schools that will saddle them with crushing debt. This is an attack on tens of thousands of Bay Area residents, particularly from low-income, people of color, and immigrant communities.*

*We, the people of San Francisco, want to save our school and reverse the cuts to classes, programs, staff, and teachers. Join us on March 14 to call on the city's elected officials to take immediate action. City Hall must ensure that Prop A funds are used for education -- as the voters intended. It must fill any extra budget gap by advancing the funds to the college. And it must call on the Department of Education to stop the ACCJC's unjustified "show cause" sanction against CCSF. Education is a right, not a privilege. Through united action we can stop the corporatization of City College and protect public education for all.*

# THURSDAY MARCH 14

## 4PM RALLY - SF CIVIC CENTER

Rally Endorsers: Save CCSF Coalition, Mission Campus Associated Students, AFT 2121, SF Labor Council, & UESF
